

The College Board is pleased to provide you with free resources to help you prepare for the SAT.

Getting Ready for the SAT

This free booklet for students is distributed to all high schools. It includes test directions, sample questions, and an official practice test. For the practice test, students can enter their answers online for a score report, and they can find answer explanations for every question for free.

Download [Getting Ready for the SAT](#) (.pdf/5.47MB). Requires *Adobe Reader* (latest version recommended).

SAT Preparation Center™

The online [SAT Preparation Center](#) features SAT test directions, sample questions, test-taking approaches, and an official practice test. For a review of the resources in the SAT Preparation Center, visit [Getting to Know the SAT](#).

Official SAT Practice Test

A free official practice test is published in the SAT Preparation Booklet and is available online. To learn more or to download the test and answer key, visit [Free Official SAT Practice Test](#).

The Official SAT Question of the Day™

Students can find a free daily practice SAT question on [collegeboard.com](#) or receive it by email. Hints and detailed answer explanations are provided for each question. Students can record their performance and track their progress on mathematics, critical reading, and writing questions. Visit [The Official SAT Question of the Day™](#) to learn more.

SAT Skills Insight™

SAT Skills Insight is a [free online tool](#) that is beneficial to all students before and after they take the SAT. It shows students the academic skills that are tested on the SAT and gives them the confidence and motivation to reach their desired score. The more knowledge students have about the test, the more they'll understand what it will take to reach their goals. Download [SAT Skills Insight for Educators](#) to learn more.
